# Craft Brewery Insurance Program

Full Service Insurance Agency  
Specializing In Coverage For Craft  
Breweries.

## Craft Brewery Insurance

Craft Breweries in California have become some of the most exciting venues for relaxation and entertainment. Each brewery offers its own unique experience and atmosphere. Some breweries are just that, strictly breweries, while others are full fledged restaurants that brew their own beer. Whether you operate a Microbrewery or Brewpub we have you covered.

### How it began

Our desire to create an insurance program for breweries was born from our enthusiasm for the Craft Brewing Industry. Some of the goals of our program include:

- Designing an insurance policy that meets the specific coverage needs of your brewery
- Providing the customer service you need so that you can focus on your beer not your insurance
- Providing coverage at a competitive price that offers your business the best possible value

## Craft Brewery Exposures

As mentioned previously, craft breweries are unique business operations. Unique business operations tend to have exposures that are not common to most other industries. When designing your insurance program we will work to identify exposures that could be most financially damaging to your brewery. Once these exposures are determined we will design an insurance policy that will cover as many of your exposures as possible.

### Exposure Which May Not Be Covered By Your Current Policy

Your brewery relies heavily on its equipment and machinery to produce beer efficiently with a consistent flavor and freshness.

Without your Brew Kettles, Bright Tanks, Fermenters, and Water Supply you would not be able to produce your product. How much money would your business lose while waiting on repairs for one of these machines?

We have available a reasonably priced coverage solution for this situation and many others unique to breweries.

## Coverage Available

Below is a list of some of the coverages available in our insurance program.
