RV Park & Campground Insurance

California is home to some of the greatest RV Parks and Campgrounds, not only in the country, but in the world. Each RV Park and Campground in California has something unique to offer their visitors, whether it is having giant redwoods just a step outside of the RV or the sweet smell of sagebrush from the nearby hiking trail. The RV Parks and Campgrounds of California are special places and require special insurance coverage to protect all of their exposures.

Our Goal for Your Insurance Program

We have been insuring RV Parks and Campgrounds for over 40 Years. Our goals for your insurance program include:

- Designing an insurance policy that meets the specific coverage needs of your RV Park or Campground
- Providing the customer service you need so that you can focus on your business not your insurance
- Providing coverage through trusted insurance carriers with an A (Excellent) rating by AM Best

RV Park & Campground Exposures

As mentioned previously, RV Parks are unique business operations. Unique business operations tend to have exposures that are not common to most other industries. When designing your insurance program we will work to identify exposures that could be most financially damaging to your RV Park or Campground. Once these exposures are determined we will design an insurance policy that will cover as many of your exposures as possible.

Exposure Which May Not Be Covered By Your Current Policy

Your RV Park relies heavily on its electrical equipment to meet the needs of your visitors or tenants.

If one of your transformers were to blow out and all of your visitors were left without power for a weekend how much could it cost your business not only to replace the transformer, but in cancelled reservations and refunds.

We have available a reasonably priced coverage solution for this situation and many others unique to RV Parks and Campgrounds.
